

VITAL FACTS FOR EVERYBODY

Citizens Big War Council Meeting at Mt. Vernon Court House
MONDAY, FEBRUARY 25, 1918—1 p.m. Sharp

WAR.
IT'S HERE.
DUTIES FOR ALL.
Citizens answer the call.
The nation's safety is in your
hands.

DO or be made to DO by
the Kaiser later.

The soldiers fight our battles,
the farmers to fight the weeds,
to furnish supplies.

The Y. M. C. A., and the Red
Cross are doing great and won-
derful things for our boys, the
farmers and others at home will
do greater.

If the people would lessen the
use of flour by one half, more
than 10,000 barrels per week
would be saved.

Exports during month of Dec-
ember 1917; breadstuffs, valued
at \$58,500,000 meats \$32,000,000.

When in doubt about crops
etc, dont fail to consult or write
county agent R. R. Spence Be-
re for any desired information
about fertilizer, seed corn, soils,
stock and poultry raising etc.

Wheat, meat, sugar and fat
will win or lose the war. Our
army should be amply supplied
with these and we, at home,
should make out no smaller than
the customary quantities.

Self protection suggests that
bigger crops of vegetables should
be raised for home consumption.

By observing the suggestions
found in this circular will prove
an aid in preventing the neces-
sity of you having, later on to
walk in a bread line.

If you have a father, brother,
son or relative in the service,
keep him in mind, do your bit
with willing hands, and encourage
your neighbor to do the same in
raising bigger crops and more
live stock.

The crisis in the world war
is at hand.

EVERYONE OF US CAN AID. Dont
imagine that because you are
only one of a hundred million
that you dont count. You do
count; counted upon by our pres-
ident and country to do your
bit.

We have the men and money
win the war. It only requires

the people at home to keep busy
and furnish necessary supplies,
(for which they are paid), to
maintain the soldiers in a high
state of efficiency or fighting
ability for winning this war. Our
people should not fail them.

Authentic information from
Germany indicates that the Ger-
man soldiers are well fed the
citizens of that empire have
been reduced to straw bread
few potatoes and beets. America,
the best fed nation on the globe
could easily furnish our fighting
forces, including the Allies, and
will plenty at home, by ex-
changing a small extent their sup-
ply of wheat, meat and fats.

If your corn crop could be
increased from one third to one
half it would be an immense
stride toward blacking the Kai-
ser's eye.

There is no danger of our
Government confiscating produc-
tion or other supplies. This bugya-
boo was started by German
agents and spies. Everything the
Government gets from citizens
will be paid for.

From all rules provided by
Fuel and Food administrators it
is demonstrated that the Govern-
ment means to regulate prices
that justice will be done producer
and consumer.

The planting season will soon
be upon us. Particular study
should be given now regarding
the acreage you will be able to
put in and care for, potatoes
and all kinds of vegetables.

It is highly important that a
surplus of vegetables be raised
for home use and local supply.
The present Federal ruling rela-
tive to the use of wheat, will likely
remain in effect for some
time, this makes the situation of
that importance which should
not be overlooked but seriously
considered and acted upon by
the raising of a larger crop of
corn, potatoes, other vegetables
and then more vegetables.

On account of early frosts last
fall, in many states, much corn
failed to mature and was found
to be sappy and unfit for seed.
No doubt that a large quantity
had the life germ killed in that

friend to have said twenty five
hundred. Error is a great deal
worse than ignorance. It is better
to know nothing than to know
what isn't true. To be beaten
but not broken, to be victorious
but not vain glorious, to strive
and contend for the prize and win
it honestly or lose it chearfully, to
lose every power in the face and
yet, never to wrest an undue ad-
vantage or win an unlawful mastery;
verily in all this there is
trialing and testing of character
which searches it to the very
roots, and this is a result which
is worth all its costs.—Mrs. W. R.
Gravely is visiting relatives in
Middlesboro and Virginia this
week.—B. T. Young was in Mt
Vernon, Thursday, on business.—
A great deal is being said about
Food Conservation, and there is
scarcely any one who does not
think but that he has been unjustly
dealt with in some respects
either by nature or fortune. What
is to be done? If these individual
imperfections can be remedied,
let us strive in every legitimate
way to help ourselves. If not,
why not make the best of them?

Bonds enables the Government
to extend the protection you
need. Bonds are safe. Bonds
safeguards your person and
your property.

It will keep the Kaiser from
overrunning our lands with his
hordes of murderers, cut-throats,
assassins, and women and baby
killers.

See any post master or banker
and get information on Liberty
bonds. War and Thrift stamps.
Invest in them. You can begin
on 25 cents.

The Government wants
chances to use in ship building
and in other departments. If you
can handle tools you can be used.
There is a system of registration
being put in effect whereby you
can register your name and etc.
after which you can go on the
call of the Government if you
wish or you can use your own
pleasure go or not go just as
suits you. Good pay assured.

Mechanics, carpenters, black-
hood, And had long since gotten used
to it.

An order came for sweetless days,
That we eat our pies and cakes
just so,

This to us was nothing new,
Sounded quite natural, don't
you know.

An order came for heatless days,
In the depth of winter, bleak
and cold,

Reminded us of the old log cabin,
And the fire place, back in the
days of old.

Whatever your orders may be
Uncle Sam.

We will gladly sacrifice what-
ever we can,
That Freedom and Democracy
may reign supreme,

Throughout all this broad land.

It's our children we live and fight
for,

And the Freedom that they
may enjoy.

Christened with the blood of
our boys.

REPLYING to speeches, recently made by the Chancellors of Germany and Austria, President Wilson reiterated before Congress Monday last the intention of the United States and Allies, to continue the war until that pretended belief of the Kaiser that his forces are victorious, is smashed into smithereens and the countries of the world freed from the domination of Prussianism.

THE LOSS of more than a hundred American soldier by sinking of the *Tuscania* last week by a German U-boat, brings the war nearer home. The sinking caused joy to the Kaiser who regretted greatly that two thousand men were lost when the vessel was not destroyed. The U-boat caught him from one of the convoy vessel shells which sent it to the bottom.

OWING to the days of miracles being past when liars and blasphemers were stricken with death for butchering truth. Kaiser Wilhelm feels secure in claiming partnership with the Lord, who appears to look at the matters tho the Kaiser was the senior in the firm and God is a side partner.

"MAN cannot live on bread alone." Neither can the people of Germany live on bread alone even if a few beets extra are thrown in now and then. The day of deliverance and the end of the war will no doubt occur in 1918.

The old saying, "Get acquainted with your neighbor, you may like him," holds good in the case of the County Agent. Get acquainted with him; he can be of service to you no matter how well posted you are in farming, stock and poultry raising, etc.

LIKE others made by our President, his speech delivered before Congress last Monday was a masterful production, which was considered of sufficient importance to send by telegram to all civilized countries the world over.

Send the article on the County Agent or farm demonstrator, in another column of this issue. It is one of the big work being done by this branch of service which is fully endorsed by National, State and county authorities.

JUDGE ROBSION OPENS CAMPAIGN IN PULASKI

JUDGE TARTAR IN INTRODUCING THE SPEAKER, MADE VIGOROUS ADDRESS

On Having Strong, Courageous Man in Congress

From The (Somerset) Semi-Weekly News.

Judge J. M. Robson, Republican candidate for Congress, made his first appearance before a Pulaski audience, at the Court House yesterday. He made a profound impression, and left no doubt upon the minds of those who heard him, with regard to his availability and fitness for the high office. The local county food administration had arranged a program which would consume most of the day, and Judge Robson readily agreed to deliver his address in the forenoon. At the conclusion of the empanneling of the juries, court adjourned for the big crowd to hear the candidate for Congress. Judge R. C. Tartar introduced the speaker, and in doing so he made a vigorous address on the urgent necessity of having a strong, able and courageous man in Congress, at this critical time. He emphasized the fact that loyal and devoted men should be placed *among* in the Federal Congress, as well as on the battle fronts, and on board the war ships. Judge Tartar said that the people of this district have made up their minds, that the time for paying political debts and gratifying sentiments is past, and

treasure and made the horizon of three long years lurid with the flames of war; that filled the ever stretching wastes of the ocean's beach with the bodies of the innocent and the defenseless— are these the vicegerents of "Our Lord God, who will strive to do what is right and good?" They are indeed! Like *h—l* they are.— Lexington Herald.

STOCK PENS:—There is no longer any question whether or not Mt. Vernon is to have stock pens. At the meeting held last Saturday at which there were some forty odd enthusiastic farmers and business men present, it was definitely decided and all the preliminary steps taken toward the organization. It will be known as Rockcastle Stock Pens, Incorporated with a capital stock of \$5000 and the location will be the Adams lot next to railroad and just east of C. A. Davis' livery stable, a most desirable spot from every standpoint. The lot was purchased at last Saturday's meeting. The officers selected are as follows: Gus Staverson, Pres., M. G. Fish, Vice Pres., and C. D. Sutton Sec'y-Treas. There were elected eleven directors selected from important that you read and different parts of the county as bed.

Read the article "Vital Facts for Rockcastle," by the County Defense Committee. It is most important to send by telegram to all civilized countries the world over.

Mr. and Mrs. Luther Mullins
are rejoicing over the arrival of
a fine boy baby, named Jack
Russell.

A Powell county man who owned
a small farm, suddenly struck
rich when oil was developed
on his tract, and for past two
years his royalties have been
more than \$300 per day. He
bought a blue grass farm. Moved
to it. Wanting to make presents
to his family he asked what they
desired. The son was given a
horse and buggy; the daughter a
piano. The wife told him that
inasmuch as the old ax she had
chopped with for years was get-
ting somewhat worn and dull, she
would be pleased with the pre-
sentation of a new one.

The play "Light house Nan"
given at the Graded school
building Tuesday evening by the
High school pupils of Brodhead,
was well presented and enthusi-
astically received by the large
and appreciative audience which
greeted them. Miss Lucille Pilk-
enton was the leading character
and deserves special mention.
Ottis Hale and Miss Miranda
Tate, who played the part of
Mr. and Mrs. Buzzer brought
down the house in the closing
scene. The other members of
the company whose names appear
elsewhere in this issue, did well
their part and demonstrated not
only fitness for the task but like-
wise proper training. Mt. Ver-
non folks enjoyed the evening's
entertainment and cordially in-
vited the Brodhead folks to return
often when they have something
so good to offer. The proceeds
which amounted to something
over \$30 went to the Red Cross.

The differences existing be-
tween the two factions of old
Providence church has at last
been brought to a close, at the
end of a law suit. Whether it
will be permanent or whether
it is only a temporary cessation
of hostilities so to speak, is left
for the future to tell. Elder J.
L. Davis has been preaching in
this building more or less for a
number of years and the di-
vision of the church may properly
be termed a pro and anti Davis
split. A suit filed several months
ago by the anti - Davis element
asking for an equal division of
time for the use of the building
was decided in favor of the
plaintiffs. It has been a most
bitter fight, resulting in bad
feelings among neighbors and
even relatives. It is to be hoped
that the reconstruction period
is near at hand, when all the
bitterness will cease and old
friends will be friends again.

They are good people, on both
sides; the west side is one of
the very best sections of the
county and the prosperity and
welfare of the county, morally,
religiously and commercially,
demands cooperation. Let us
hope that it may be had in the
future.

Cardul? ... I did, and
soon saw it was helping me... After 12 bottles,
I am strong and well."

Mt. Vernon, like every other
town in the world, has a few people
who never see any good in any move
started in the town looking to improvement. Yes, a
little town does little things, because they have but little to draw
from. But the least of all these
little things is the man who never
sees any good or lends any encouragement
to the little undertakings of his little home town.

The local chapter of Red Cross
workers are busy folks. These
ladies have ready for shipment
today about one hundred pajama
suits to be used by our wounded
soldiers and sailor boys while
being treated in hospitals. Thirteen
of these suits were made by the
Brodhead ladies. The Wildie
ladies are extra good tailors.
The Livingston ladies are getting
started. They have ordered their
goods and will soon be ready
for work.

Fords are going to be awful
hard to get in the spring. Won't
you give us your order now?
